Sub: Requesting for setting up a
public library at Nilpur,
Burdwan.

Sir,
Most respectfully, I, the undersigned, beg of you to state that the people of the above mentioned locality eagerly want a public library. For this we need your kind assistance.

Our locality has the population of over 1100. The inhabitants are mostly daily earners or below the poverty line. But they are very much cultured and fond of education. They find it difficult to run their families, but send their kids to the schools, colleges or universities. In such a locality a public library is the most needed. Library is the store house of books. It contains various kinds of books. So this will be very much beneficial to the students of our locality. Those who cannot afford the expenses of buying all the books they require will get it a very useful place. They will be able to meet up their need of books if there is a public library in our locality.

I, therefore, on behalf of the residents of our locality, pray to your kindness to set up a public library as soon as possible.

Thanking,

Date- 12.10.18

Burdwan.

Yours faithfully,
Rohit Das.
